

TALENTED PROFESSIONAL STAFF

John D. Taylor, P.E.

Associate

EDUCATION

Purdue University
West Lafayette, Indiana
Bachelor of Science
in Civil Engineering 1993

PROFESSIONAL ORGANIZATIONS

American Council of
Engineering Companies of Indiana
Governmental Affairs Committee
Fire & Building Safety Committee

American Society of
Civil Engineers
Local and state leadership positions

Indiana Civil Engineering
Professional Development Seminar
Advisory Committee
Member since 1995

Metropolitan Indianapolis Branch
Structural Engineering Institute
Past Chairman

American Institute of Steel
Construction

REGISTRATION

Registered/Licensed Professional
Engineer: Indiana, Florida,
Tennessee, Connecticut, North
Carolina, Oregon, Georgia,
Wisconsin

ACCOLADES

Chi Epsilon Civil Engineering
Honors Fraternity

JD's portfolio of projects includes many superlatives — headquarters for a high-profile fire station, many large intricate distribution centers around the country; additions, renovations and new construction involving secondary and higher educational buildings, signature venues, numerous municipal water and wastewater treatment facilities, and the first Catholic high school built in Central Indiana in decades. Whether designing monumental type buildings, additions and renovations or industrial projects, JD's expertise and resourcefulness really shines.

JD's experience encompasses complex structural analysis and design including special detailing requirements in areas of high seismic risk and the design of long-span structures, engineered trusses, column free environments, special slab-on-grade and floor systems, and special lateral load resisting systems. JD approaches renovation projects on a case by case basis. He studies the existing conditions and the proposed plan, and then applies the same ingenuity and fervor toward a winning solution as he does for new construction, bringing the client's vision to life in a creative way.

JD is a mentor to other engineers on our staff and is director of operations in charge of scheduling, project delivery and resource allocation. As an active leader JD has been a significant contributor to the annual Civil Engineering Professional Development Seminar cosponsored by Purdue University's School of Civil Engineering and has held numerous leadership positions within the Indiana Section of the American Society of Civil Engineers.

REPRESENTATIVE PROJECTS

**Ball State University Music
Instruction Building***
Muncie, IN

**Blessed Theodore Guerin High
School***
Noblesville, IN

**Eastern Howard High School
Auditorium Addition***
Greentown, IN

**Shelbyville Fire Station No. 1 and
Headquarters**
Shelbyville, IN

**Hoosier Park at Anderson –
Expansion and Renovation**
Anderson, IN

**Indiana University Psychology
Building North Addition***
Bloomington, IN

**Lowe's Regional Distribution
Centers and Additions**
Nationwide

**Purdue University Dick and Sandy
Dauch Alumni Center***
West Lafayette, IN
